PAVEMENT SEALERS

POLYMER-MODIFIED MASTERSEAL™ (PMM)
ASPHALT BASED PAVEMENT SEALER

Advantages:
- Added strength, adhesion, flexibility, fuel resistance, and UV resistance
- Deep, rich black color

MIXING PROCEDURES:
(Based on 100 gallons of Polymer-Modified MasterSeal)

PMM .......................................................... 100 gallons
Sand (40-70 mesh AFS) ......................... 200-400 lbs.

NOTE: If required, a small amount of water may be added to facilitate application of mixed material.

MATERIAL REQUIREMENTS: One gallon of PMM will cover approximately 85 - 95 square feet (9.4 to 10.5 square yards) per coat when properly mixed as a sand-filled coat and applied.

NOTE: Coverage rate may vary due to pavement age, porosity, and method of application.

POLYMER MODIFIED FOR MAXIMUM DURABILITY

Blended with polymers for superior adhesion, flexibility, and durability

Polymer-Modified MasterSeal Uses:
- Parking Lots
- Driveways
- Low-Traffic Roads
- Low-Speed Roads
- Airports
- Shopping Malls
- Highway Shoulders

POLYMER MODIFIED FOR MAXIMUM DURABILITY

UNSEALED VS. SEALED

PMM replenishes the binder that is lost through weathering and aging and provides a barrier to moisture intrusion as well as ultraviolet rays, chemicals and salt. PMM beautifies pavement, enhancing the image and curb appeal of commercial properties, home driveways, roadways and more.
