SealMaster PMB®

Premium Coal Tar Sealer

HIGHEST LEVEL
OF POLYMER-
MODIFICATION
**MAXIMUM
DURABILITY**

ADVANTAGES:

THE HIGHEST LEVEL OF POLYMER MODIFICATION MAKES THE DIFFERENCE...

PMB is a premium clay-stabilized, fuel resistant coal tar emulsion pavement sealer featuring the highest level of hot-blended polymers for maximum adhesion, flexibility and durability. PMB is ideal for protecting all types of asphalt pavement surfaces including parking lots, driveways, shopping malls, airports and more.

PMB PROTECTS PAVEMENT AGAINST:

CHEMICALS

MOISTURE

OXIDATION

Applied at higher solids than conventional sealer.

- A** SealMaster PMB restores the original black color to asphalt and greatly enhances the overall appearance of your pavement surface. PMB provides a deep rich "like new" black appearance. Formulated for superior fuel resistance.
- B** **Sealed vs. Unsealed...**
Problem: Left untreated, asphalt pavement will deteriorate rapidly. The asphalt binder that holds the pavement together begins to oxidize and weather soon after installation. Moisture penetrates the asphalt causing further damage and deterioration to the pavement.
Solution: PMB replenishes the binder that is lost through weathering and aging, and provides superior protection against environmental distress.
- C** Special engineered advanced polymers are hot-blended into PMB for additional strength, adhesion, flexibility and durability. PMB features the highest level of polymer modification for optimum performance.
- D** The deep black color melts snow and ice significantly faster than unsealed pavements resulting in much greater safety for both vehicle and pedestrian traffic.
- E** A safer pavement sealer for pedestrian and vehicle traffic... PMB's high level of aggregate loading produces a surface coating with skid resistance in both wet and dry conditions, providing property owners with a safer pavement for both motorists and pedestrians.

■ Scheduled Sealcoating ■ No Scheduled Sealcoating

SEALMASTER PMB USES...

- Parking Lots
- Driveways
- Airports
- Shopping Malls
- And more

MAINTAINING THE WORLD'S PAVEMENT

A TRADITION OF QUALITY & INNOVATION...

For over 40 years, property owners and government agencies have turned to SealMaster for innovative, cost-effective pavement maintenance solutions. SealMaster products are designed to repair, protect and beautify pavement, greatly enhancing your property's curb appeal. SealMaster continues to be an industry innovator with over one billion gallons of pavement sealer applied world-wide.

PROFESSIONAL SERVICE...

SealMaster has the industry's largest network of professionally trained pavement maintenance contractors to assure successful results at competitive prices. Our network of highly trained and experienced professionals are available to provide on-site project recommendations as well as full application services to assure quality results on every project.

A GLOBAL LEADER...

With over 65 Manufacturing and Distribution centers coast to coast along with manufacturing and product distribution in over 50 countries, SealMaster continues to be a global leader in pavement maintenance. SealMaster's unparalleled record of technological advances in both product and application equipment continues to set us apart as a true industry leader.
