ADVANTAGES:

THE ENVIRONMENTALLY FRIENDLY SURFACE SEAL FOR ROADS...

OptiPave is an asphalt based emulsion pavement surface seal designed to seal and protect asphalt roads while replenishing the pavement binder that is lost through oxidation and weathering. OptiPave beautifies, protects, and extends the service life of asphalt pavement while providing a rich, black "like new" appearance. Can also be applied over slurry and chip seals.

**OPTIPAVE PROTECTS
PAVEMENT AGAINST:**

OXIDATION

- A**— An Economical Approach to Pavement Maintenance. A systematic program of maintaining pavement with OptiPave will more than double the service life of pavement at a fraction of the cost of repaving.
- B**— Replenishes the valuable asphalt binder or “glue” that is lost through weathering, aging, traffic wear and other forms of environmental distress.
- C**— Provides a deep rich “like new” black appearance.
- D**— Enhanced Traffic Marking visibility for added driver safety
- E**— Deep black color melts snow and ice significantly faster than untreated pavement.
- F**— Produces an even textured surface with no loose stones, making it ideal for vehicle, bicycle and pedestrian traffic.
- G**— Fast, efficient one coat application process with minimal impact on traffic flow.
