QUALITY**

ADVANTAGES:

BEAUTIFIES & PROTECTS

SealMaster Coal Tar Ultra Sealer is a clay- stabilized, fuel resistant coal tar emulsion pavement sealer fortified with special surfactants, polymer additives and sand for superior adhesion and durability. Coal Tar Ultra Sealer is ideal for protecting all types of asphalt pavement surfaces including parking lots, driveways, shopping malls, airports and more. Meets ASTM and Federal specifications.

SEALMASTER COAL TAR ULTRA PROTECTS PAVEMENT AGAINST:

CHEMICALS

MOISTURE

OXIDATION

A pavement maintenance program that includes periodic sealcoating and crack filling will more than double the service life of asphalt pavement.

- A** – Coal Tar Ultra Sealer restores the original black color to asphalt and greatly enhances the overall appearance of your pavement surface. Coal Tar Ultra Sealer provides a deep rich “like new” black appearance. Formulated for superior fuel resistance.
 - B** – **SEALED VS. UNSEALED...**
Problem: Left untreated, asphalt pavement will deteriorate rapidly. The asphalt binder that holds the pavement together begins to oxidize and weather soon after installation. Moisture penetrates the asphalt causing further damage and deterioration to the pavement.
Solution: SealMaster Coal Tar Ultra Sealer replenishes the binder that is lost through weathering and aging, and provides superior protection against environmental distress.
 - C** – Special surfactants are blended into Coal Tar Ultra Sealer for additional adhesion, water resistance and durability.
 - D** – The deep black color melts snow and ice significantly faster than unsealed pavements resulting in much greater safety for both vehicle and pedestrian traffic.
 - E** – A safer pavement sealer for pedestrian and vehicle traffic... Coal Tar Ultra's high level of aggregate loading produces a surface coating with skid resistance in both wet and dry conditions. Coal Tar Ultra Sealer provides property owners with a safer pavement for both motorists and pedestrians.
- * FACTORY BLENDED FOR CONSISTENT QUALITY ON EVERY JOB.**

■ Scheduled Sealcoating ■ No Scheduled Sealcoating

COAL TAR ULTRA SEALER USES...

- Parking Lots
- Driveways
- Airports
- Shopping Malls
- And More

MAINTAINING THE WORLD'S PAVEMENT

A TRADITION OF QUALITY & INNOVATION...

For over 50 years, property owners and government agencies have turned to SealMaster for innovative, cost-effective pavement maintenance solutions. SealMaster products are designed to repair, protect and beautify pavement, greatly enhancing your property's curb appeal. SealMaster continues to be an industry innovator with over one billion gallons of pavement sealer applied world-wide.

PROFESSIONAL SERVICE...

SealMaster has the industry's largest network of professionally trained pavement maintenance contractors to assure successful results at competitive prices. Our network of highly trained and experienced professionals are available to provide on-site project recommendations as well as full application services to assure quality results on every project.

A GLOBAL LEADER...

With over 100 Manufacturing and Distribution centers coast to coast along with manufacturing and product distribution in over 50 countries, SealMaster continues to be a global leader in pavement maintenance. SealMaster's unparalleled record of technological advances in both product and application equipment continues to set us apart as a true industry leader.
