CONCRETE PRODUCTS

CONCRETE SEALER
100% ACRYLIC WATER-BASED EMULSION

Features:
- Meets ASTM C309 Type I Class A
- Beautifies concrete
- Protects against moisture penetration and water damage
- Protects against surface scaling and spalling
- Dust-proofs concrete surfaces
- Provides stain and chemical resistance
- Excellent resistance to water blushing (whitening), when exposed to rain or moisture.
- Environmentally friendly, VOC compliant
- Outstanding wearability
- Non-yellowing formula

MIXING PROCEDURES: Concrete Sealer is ready-to-use. Do not dilute. Stir thoroughly before applying.

MATERIAL REQUIREMENTS (coverage): One gallon of Concrete Sealer will cover 200 square feet.

CONCRETE PATCH
100% ACRYLIC TROWEL GRADE FORMULA

Features:
- Heavy-bodied trowel grade patch material fortified with mineral filler
- Designed for filling larger cracks up to 1” wide in concrete surfaces
- Fills and repairs damaged and spalled areas in concrete up to 1/4” deep
- Ideal for repairing interior and exterior concrete surfaces
- Environmentally friendly, water-based formula

</tbody>
</table>

MIXING PROCEDURES: Use as is. Do not dilute. Stir thoroughly before applying.

MATERIAL REQUIREMENTS (coverage): One gallon of Concrete Patch will fill approximately 75-150 feet of cracks depending on depth and width of crack. When used to patch low spots, coverage will vary with depth of patch.

CONCRETE PATCH BINDER
LIQUID ACRYLIC BINDING AGENT FOR SAND AND CEMENT MIXES

Features:
- 100% acrylic emulsion designed for mixing with cement powder and sand
- Produces a patch mix with superior flexural, adhesive, and impact strength
- Excellent adhesion to concrete and masonry
- Resistance to many industrial chemicals
- Environmentally friendly, water-based formulation
- Provides lasting repair for concrete surfaces
- Ideal for thin overlays and repairs up to 1/2” thick

</tbody>
</table>

MIXING PROCEDURES:
Concrete Patch Binder.................3.5 gallons
Sand...........................................100 lbs.
Portland Cement..........................15 - 20 lbs.
Water ...........................................5 gallon

(Additional water may be required to achieve workability)

MATERIAL REQUIREMENTS: One gallon of Concrete Patch Binder will produce enough patch mix (when mixed with sand and cement) to fill .86 square yard (approximately 7.75 sq. ft.) at 1/4” depth.

CONCRETE CRACK SEALANT
100% ACRYLIC EMULSION CRACK SEALANT

Features:
- Designed for filling cracks in concrete surfaces
- Environmentally friendly 100% acrylic, water-based emulsion
- Outstanding flexibility - remains flexible at temperatures below 0°F
- High solids formula for less shrinkage
- Packaged in one gallon jugs
