FILLING TECHNOLOGY**

Shown with 10 lbs. of sand added to TruFlex. Sand addition makes TruFlex ideal for repairing larger cracks and alligatored areas.

TRUFLEX® RUBBERIZED CRACK SEALANT

COLD POUR CONVENIENCE - HOT POUR PERFORMANCE

TruFlex is a highly rubberized crack sealant designed for sealing cracks in asphalt or concrete pavements. TruFlex can also be mixed with sand for filling larger cracks and alligatored areas.

Features:

- Ideal for use as a high performance crack sealant for asphalt and concrete pavements
- Also designed for mixing with sand to repair larger cracks and alligatored pavement
- High softening point and toughness helps resist ripping and tearing in high temperatures
- Superior UV and fuel resistance
