Methods and Materials for Containment and Cleaning Up

Methods for Containment: Stop the flow of material, if this is without risk. Contain any spills with dikes or absorbents

to prevent migration and entry into sewers or streams.

Methods for Cleaning Up: Allow the molten material to cool. Soak up spills with inert solids, such as clay or

diatomaceous earth as soon as possible. On land, sweep or shovel into suitable

containers.

HANDLING AND STORAGE

Precautions for Safe Handling

Avoid breathing vapors. Avoid contact with skin and eyes. Obtain special instructions Handling:

before use. Do not handle until all safety precautions have been read and understood. Do not eat, drink, or smoke when using this product. Wash hands and other exposed areas

with mild soap and water before eating, drinking, or smoking when leaving work.

Conditions for Safe Storage, Including Any Incompatibilities

Storage: Store in properly closed and labeled containers away from sources of ignition. Store

containers in a well-ventilated, clean, and dry area.
