PRODUCT DESCRIPTION & BENEFITS
SealMaster Concrete Sealer is a 100% acrylic, clear drying emulsion sealer designed for protecting all types of concrete surfaces.
Product features and benefits include:
• Meets ASTM C309 Type I Class A
• Beautifies concrete
• Protects against moisture, penetration, and water damage
• Protects against surface scaling and spalling
• Dust proofs concrete surfaces
• Provides stain and chemical resistance
• Excellent resistance to water blushing (whitening), when exposed to rain or moisture.
• Environmentally friendly, VOC compliant
• Outstanding wearability
• Non-yellowing formula

USES
Concrete sealer is ideal for protecting driveways, parking lots, patios, sidewalks, statuary, concrete walls, factory floors, garage floors, and basement floors.

COMPOSITION
SealMaster Concrete Sealer is comprised of 100% acrylic emulsion resins, specialty surfactants, and water.

SIZES
Concrete Sealer is available in 55-gallon drums, and 5-gallon pails.

COLOR
Dries Clear.

LIMITATIONS
Concrete Sealer shall not be applied when temperature is expected to drop below 50°F at any time within a 24 hour period after application.

ENVIRONMENTAL CONSIDERATIONS
SealMaster Concrete Sealer is an environmentally friendly water based acrylic sealer containing less than 100 grams per liter Volatile Organic Content (VOC).

PHYSICAL/CHEMICAL PROPERTIES:
SealMaster Concrete Sealer meets the following material requirements when tested in accordance with ASTM C309 Type I Class A, ASTM D658-44, ASTM D1644, ASTM D4758, ASTM D2939, and ASTM D3960. (see chart on right)

INSTALLATION
New concrete must be firm enough to walk on with no surface water present prior to application. Concrete surface must be cleaned entirely of dust, debris, and stains prior to application.

METHODS
Recommended application is by spray (power type or garden sprayer). A roller, brush, or lambs wool applicator may also be used.

MIXING PROCEDURES
SealMaster Concrete Sealer is ready to use. Do not dilute. Stir thoroughly.

APPLICATION
Apply Concrete Sealer in a thin even coat. Avoid puddling. A one coat application is recommended.

APPLICATION RATE
Apply SealMaster Concrete Sealer at a rate of 200 square feet per gallon.
NOTE: Application rate may vary due to concrete age and porosity.

ESTIMATING MATERIAL REQUIREMENTS
Typically, one gallon of Concrete Sealer will cover 200 square feet per gallon.
PRECAUTIONS
Both surface and ambient temperature shall be a minimum of 50°F. Do not apply when temperature is expected to drop below 50°F within a 24 hour period following application. Keep Out Of Reach Of Children. Do not store unopened drums or pails in freezing temperatures.

PACKAGING AND AVAILABILITY
SealMaster Concrete Sealer is supported by a nationwide network of SealMaster manufacturing facilities along with a nationwide network of qualified applicators.

WARRANTY AND DISCLAIMER
The statements made on this technical data sheet are believed to be true and accurate and are intended to provide a guide for approved application practices. As workmanship, weather, construction, condition of pavement, tools utilized, and other variables affecting results are all beyond our control, the manufacturer warrants only that the material conforms to product specifications and any liability to the buyer or user of this product is limited to the replacement value of the product only. The manufacturer expressly disclaims any implied warranties of merchantability or fitness for a particular purpose.
