Features:

- Air diaphragm material pump
- Large basket strainer to reduce tip clogging
- 50 ft. hose and applicator wand
- Includes straight pipe and crack shoe applicator assemblies
- 8 H.P. Honda engine

Specifications:	
Length.....	56"
Width.....	25"
Height.....	50"
Weight.....	440 lbs.

**Discover The Ease,
Convenience, Safety
And Performance
Of SealMaster® Cold
Applied Crack Filling
Technologies.**

**SealMaster® Cold Applied Technologies Provide
Superior Protection Against Moisture Intrusion**
- The leading cause of pavement failure.

Left unfilled, cracks will allow rain and moisture to flow through pavement and erode base materials ultimately resulting in potholes and pavement failure.

Filling cracks with Crack Filler helps prevent rain and moisture from flowing through the pavement and causing erosion or failure.

Crack Pro® 2000 Cold Applied Applicator Unit

**- Economical Pump Unit That Plugs Into Any Air
Compressor (10 cfm or higher)**
