website at www.sealmaster.net
to find the location near you.

3. PRODUCT DESCRIPTION & BENEFITS
   GatorPave is a single component,
   highly filled polymer modified
   asphalt emulsion that is designed
   to fill and repair “alligatored” and
   cracked areas in asphalt pavement
   surfaces. GatorPave is a cold-
   applied, easy to use patching
   material. GatorPave is an
   economical solution for alligatored
   areas.

   Basic Uses: GatorPave is designed
   for patching alligatored and
   cracked areas in asphalt pavement
   surfaces including parking lots,
   driveways, and roadways.

   Composition: GatorPave is a
   polymer modified asphalt emulsion
   fortified with fibers, rubber, and
   aggregate to provide excellent
   filling and flexural characteristics.

   Sizes: GatorPave is available in 5-
   gallon and 55-gallon containers.

   Color: Dries black.

   Limitations: GatorPave shall not be
   applied when temperature is
   expected to drop below 50°F at
   any time within a 24 hour period
   immediately following application.

4. TECHNICAL DATA
   Environmental Considerations: GatorPave
   is a non-hazardous, environmentally
   friendly, water-based patching material
   containing less than 150 grams per
   liter volatile organic content (VOC).

   Physical/Chemical Properties: GatorPave meets the following
   material requirements when tested
   in accordance with ASTM D140,
   ASTM D466, ASTM D529, ASTM
   D2939, and ASTM D244 procedures
   (see chart below)

5. INSTALLATION
   Alligatored and cracked areas
   must be cleaned of all dirt, debris,
   and vegetation prior to application
   of GatorPave.

   Methods: GatorPave shall be
   spread over repair areas with
   squeegee or trowel.

   Mixing Procedures: Stir material
   thoroughly. GatorPave is a ready
   to use material. Do not dilute.

   Application: Spread GatorPave
   patch material over area to be
   repaired and squeegee or trowel
   flush to adjoining pavement. Allow
   material to dry before opening to
   traffic.

   Estimating Material Requirements:
   GatorPave coverage rate is
   dependent upon pavement
   surface conditions, and width and
   depth of cracks. A small test
   patch area may be required to establish
   overall material usage.

   Precautions: Both surface and
   ambient temperature shall be a
   minimum of 50°F. Temperature shall
   not drop below 50°F in a 24 hour
   period following application. Keep
   Out Of Reach Of Children. Do not
   store unopened containers in
   freezing temperatures.

6. AVAILABILITY & COST
   Availability: GatorPave is
   supported by a national network
   of SealMaster facilities along with
   a national network of professional
   applicators.

   Cost: Cost information can be
   obtained from a local applicator.
   Contact SealMaster for the name
   of the applicator in your area.

7. WARRANTY
   SealMaster warrants that
   GatorPave meets the chemical
   composition and performance
   requirements set forth in section 4.
   Liability to the buyer or user of
   this product is limited to the
   replacement value of the product
   only.
