AsPen[®]

Surface Sealer

**ECO-FRIENDLY
REJUVENATOR
FOR PAVEMENT
PRESERVATION**

ADVANTAGES:

The Environmentally Friendly Pavement Rejuvenator...

AsPen is an asphalt based emulsion pavement rejuvenator designed to penetrate, water proof, and replenish the pavement binder that is lost through oxidation and weathering. AsPen beautifies, protects, and extends the service life of asphalt pavement while providing a rich, black "like new" appearance.

AsPen is a single coat application product that penetrates into the pavement surface utilizing the existing pavement profile to maintain traction.

ASPEN PROTECTS PAVEMENT AGAINST:

CHEMICALS

MOISTURE

OXIDATION

- A** An Economical Approach to Pavement Maintenance. A systematic program of maintaining pavement with AsPen will more than double the service life of pavement at a fraction of the cost of repaving.
- B** Replenishes the valuable asphalt binder or "glue" that is lost through weathering, aging, traffic wear and other forms of environmental distress.
- C** Provides a deep rich "like new" black appearance.
- D** Enhanced Traffic Marking visibility for added driver safety
- E** Deep black color melts snow and ice significantly faster than untreated pavement.
- F** Produces an even textured surface with no loose stones, making it ideal for vehicle, bicycle and pedestrian traffic.
- G** Fast, efficient one coat application process with minimal impact on traffic flow.

■ AsPen ■ No Scheduled Maintenance

Pavement Condition

ASPEN SURFACE SEALER USES...

- Low Traffic Roads & Streets
- Homeowner Associations and Gated Communities
- Airport Taxiways
- Highway Shoulders
- Neighborhood and Cul-de-sac roads

MAINTAINING THE WORLD'S PAVEMENT

A TRADITION OF QUALITY & INNOVATION...

For over 40 years, property owners and government agencies have turned to SealMaster for innovative, cost-effective pavement maintenance solutions. With over One Billion gallons of coatings applied world-wide, SealMaster continues the tradition of innovation with AsPen Surface Sealer.

PROFESSIONAL SERVICE...

SealMaster has the industry's largest network of professionally trained pavement maintenance contractors to assure successful results at competitive prices. Our network of highly trained and experienced professionals are available to provide on-site project recommendations as well as full application services to assure quality results on every project.

A GLOBAL LEADER...

With over 65 Manufacturing and Distribution centers coast to coast along with manufacturing and product distribution in over 50 countries, SealMaster continues to be a global leader in pavement maintenance. SealMaster's unparalleled record of technological advances in both product and application equipment continues to set us apart as a true industry leader.
